Subject: FW: Aquifer Exemption info from DOGGR

Hi Jerry, I sent this to Tim but it looks like he is out until the New Year, so thought I should forward to you. Thanks.

Subject: Aquifer Exemption info from DOGGR

Hi Tim,

At our meeting last week, I believe you all agreed to provide us 3 things by today - 1) a list of fields with AE problems that will require fixing; 2) a preliminary draft of the plan for addressing the AE issues; and 3) a clarification of the situation with our Elk Hills permit – i.e., whether DOGGR will have to exempt the aquifer into which EH is injecting Class I fluids under the EPA permit (b/c there are Class II injectors using it as well).

Hopefully, that is still on track. I am on leave next week, but Michele will be in and available if Jerry or his team have any questions or would like to discuss these matters.

Thanks and Happy holidays!

David
